Swimming rules
at the pool

Only go for a swim if you feel comfortable. Never go for a swim with a completely full or empty stomach.

Cool down before you go into the water. Only go into water as deep as your stomach if you cannot swim.

The swimming pool is slippery, go slowly. Do not push others into the water, even when you are playing.

Immerse yourself, not others. Be considerate of others, especially to children and the elderly.

Don’t endanger anyone by jumping into the water. Never swim in the diving area.

Jump into the water only if it is deep enough and clear. Air mattresses, bumper tubes and rubber rings do not provide you security.

Leave the water immediately when you are cold.
